A Unique EDUCATIONAL EXPERIENCE

Providing Exceptional Educator Training
 for Early Childhood Education

Belinda Henderson

Belinda Henderson has been using her Unique method of Early childhood Education with GREAT success for many years. She's now sharing it with you. A Unique Educational Experience provides Exceptional "early childhood" Education for Teachers to address the most rapid phase of growth and development that a child goes through. This training addresses the foundations for children's social skills, self-esteem, perception of the world, moral outlook, as well as the development of cognitive skills. As a specialist in early childhood education, Belinda captivates audiences with her enthusiasm.

Having twenty-nine years in the field of education and fifteen years of classroom experience, Belinda Henderson is able to present a wealth of techniques and strategies for developing literacy in young learners.

Belinda learned "in the trenches" how important education is to young children's development. In addition to teaching school, she has been the owner and director of two preschools in two locations, and now serves on several boards such as: The Even Start Advisory Board of Cedar Hill, The Duncanville Independent School District Advisory Committee for hiring new principals, Baby Cakes Learning Center Advisory Board are a few to be mentioned.

Belinda's passion for her work with children, teachers, and curriculum development supports her goal of sharing researched base, "cutting-edge" information with teachers while at the same time honoring them for what they do and, most important, for who they are.

Our Mission

It is the goal of Mrs. Henderson to provide you with the resources and skills to ensure that every child in your class has a phenomenal experience with a gentle, loving, healing, educational touch! The impressions that are left on a child's life can impact their life in a vital way.

It is imperative that the hands that rock the cradle feel they are equipped to do so. Mrs. Henderson is here to show you how to educate the next 21st century students!

Remember, that "the woman or man's role as a nurturer, teacher, and care-taker are significant in creating leadership and molding those who will command and manage in the next generation.

A Unique Educational Experience Classes offered through workshops

Classroom Management for Educators

This course provides participants with strategies designed to assist them in managing their classrooms more effectively. Participants work on personal classroom preparation, setup, and management. Participants learn how to establish and communicate expectations in a classroom, deal with discipline and behavior problems without loss of instructional time, and create a positive learning environment.

Teaching Teachers to Teach Preschoolers

The workshop will help establish and reinforce teaching and managing preschoolers in the classroom. This interactive session will explore classroom management through directional teaching and structural routines. The session will also focus on developing a preschooler phonic skills for reading through a step by step process of building up from letters and sounds to blends by which all programs are assessed.

The Early Childhood Learning Environment

The environment is an important and powerful teaching tool. Much of the early childhood teacher's work is done before the children ever arrive. If the environment is set up with the knowledge of how children learn and develop, it can positively support teaching and learning. A teacher experiencing difficulty with student behavior should carefully evaluate the daily schedule, classroom arrangement, materials within each learning center, and the curriculum.

Discipline for Toddler and Twos

Do you think of "Terrible Toddlers and Twos" or "Terrific Toddlers and Twos"? Knowing how to manage this age group and understanding their development will get you thinking "Terrific Toddlers and Twos"! You will explore many positive ways to work with this age group.

How to Use Music and Movement Throughout the Day

Songs and movements make transitions fun and help children tune in when they appear to be tuned out. Even if you can't sing you can make a song out of anything.

Science Activities for Young Children

Science is all around us! Learn to help children explore science through a variety of hands-on activities both inside the classroom and outdoors.

Child Care Provider: Heartsaver Pediatric First Aid CPR/AED

The Heartsaver Pediatric First Aid CPR/AED course is designed to meet the clock hour requirement for child care workers in Dallas. It teaches child care providers and others to respond to and manage illnesses and injuries in a child or infant in the first few minutes until professional help arrives. It covers the four steps of first aid and first aid skills such as finding the problem, stopping bleeding, bandaging and using an Epinephrine pen, as well as child CPR/AED, infant CPR and modules in adult CPR/AED, child mask, infant mask and Asthma Care Training for Child Care Providers. Registration one week prior to course start date is required. Due to the nature of the course you must arrive on time. No admittance after stated start time. Half Hour Lunch Break - Bring a Sack Lunch

Supporting and Involving Families - Creating Partnerships for Learning

Families are the most important people in a child's life. Learn methods to reach out to parents and families to help them become partners in their child's education. How can you support families? What questions and concerns do parents have? How can you build and create partnerships for learning?

How and When to Talk to Parents

Gain helpful methods for communicating your concerns with parents about their child's education. Specific consultation strategies and techniques are demonstrated. Discussion of how to talk to parents to build and maintain positive relationships.
